

November 6, 2006

Dear Parents and Community Members,

Waller ISD is facing record growth. Several subdivisions have been started within the district that could rapidly increase the number of students in our schools. Extensive planning will be required. Parent and community participation in the planning process is important to ensure Waller ISD meets the needs of all students.

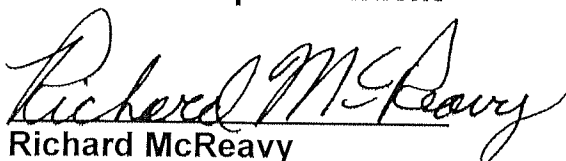

The Waller ISD Board of Trustees and the administration invite you to be a part of the planning committee. An organizational meeting will be held at 7:00pm Tuesday, November 14, 2006, in the Waller High School Auditorium to introduce the planning process and develop sub-committees to examine current facilities, projected growth, financing options, tax rate, grade alignment, potential sites and other sub-committees that may be needed.

The results of the planning committee will be presented to the Waller ISD Board of Trustees with a recommendation on the best course of action to meet the needs of current and future students of our school district.

You may call the superintendent's office at 936-931-3685 or email [tpershal@waller.isd.esc4.net](mailto:tpershal@waller.isd.esc4.net) to sign up for a planning committee or just attend the organization meeting at 7:00pm Tuesday, November 14, 2006, at Waller High School.

Sincerely,

Waller ISD Superintendent

  
Richard McReavy

Waller ISD Board of Trustees President

  
Robert Carvell
